SUMMARY

Motivated 3rd-year B.E. Computer Science and Business Systems (CSBS) student with strong skills in database management, Java, C, Python, PHP, and web development. Passionate about building efficient, user-friendly applications and applying problem-solving skills to real-world projects. Focused on delivering high-quality results while continuously learning and contributing effectively in collaborative environments.

EDUCATION

B.E. in Computer Science and Business Systems, SG Balekundri Institute of Technology GPA - 7 / 10	08/2023 – 06/2027 Belagavi, India
Class 12 (Science), Jain PU College 83.5% / 100	06/2021 – 05/2023 Belagavi, India

SKILLS

Programming Languages

C, C++, Python, Java, JavaScript

Frontend

HTML, Cascading Style Sheets(CSS), React.js

Backend

Node.js, Express.js

Databases

MongoDB, MySQL

DevOps & Tools

Git, GitHub, Vscode, REST APIs

PROJECTS

Aadisys Software Solutions - Landing Page, HTML, CSS, JavaScript, PHP 🔗 Developed and deployed a responsive landing page to enhance brand visibility and user engagement. <ul style="list-style-type: none">• Built cross-device website using HTML, CSS, JavaScript, PHP for seamless performance.• Integrated OTP verification, parallax effects, testimonials, and interactive counters.• Optimized UI/UX for scalability, accessibility, and improved user experience.	08/2025 – 10/2025
COVID Bed Slot Booking System, HTML, CSS, JavaScript, MySQL, PhpMyAdmin Developed a web-based booking system to manage real-time hospital bed availability during the COVID-19 pandemic. <ul style="list-style-type: none">• Built platform using PHP, MySQL, HTML, CSS, JavaScript for efficient slot booking.• Implemented secure authentication and database handling for patient data protection.• Optimized system for scalability and reduced booking time in critical scenarios.	12/2024 – 02/2025

Certificates

Oracle Cloud Infrastructure
2025 Certified AI Foundations
Associate

The Oracle Cloud Infrastructure (OCI) AI Foundations certification is designed to introduce learners to the fundamental concepts of artificial intelligence (AI) and machine learning (ML), with a specific focus on the practical application of these technologies within the Oracle Cloud Infrastructure

Oracle Data Platform 2025
Certified Foundations Associate

This certification is targeted towards candidates with non-technical backgrounds, such as those involved in selling or procuring cloud solutions, as well as those with a technical background who want to validate their foundational-level knowledge around core Oracle Data Management services

Power Bi for Begineers

Successfully completed foundational training in Microsoft Power BI, gaining hands-on experience in data visualization, data modeling, and report creation. Learned to import, clean, and transform data, build interactive dashboards, apply DAX functions, and publish insights for data-driven decision-making.

KEY ACHIEVEMENTS

Hackathon Participation

Participated in a hackathon at KLE BVB College of Engineering & Technology to develop a secure document verification system using QR code technology.

STRENGTHS

Problem-Solving & Analytical Thinking

Ability to break down complex challenges and design efficient technical solutions.

Adaptability & Continuous Learning

Quick to learn emerging technologies and apply them to real-world projects.
